

SUPERINTENDENT'S CORNER

LES HOLMAN

NOVEMBER 3RD, 2021

In this edition of The Superintendent' Corner, I would like to notify you of some upcoming events. The City of Burlingame has been sponsoring a Christmas tree contest where people can put in an application to have their tree judged and possibly chosen to be the center piece for our Holiday Season. The applications must be received by November 8th in order to give us enough time to judge and select the tree. Once a tree has been selected, the winners will be notified, and we will gather the tree to be placed. On December 4th, the Burlingame Chamber of Commerce will be hosting it's annual Country Christmas on Santa Fe Avenue. There will be vendors in the Museum annex, The Hideout, and the Masonic Lodge. Santa will be present to see the children and there will be a lighted parade and tree lighting ceremony at 6 p.m. so stay tuned for more information!

As you drive downtown you will notice signs hanging from our light poles with names and faces on them. These faces are those of our veterans that have supported our freedom and our community. These banners were brought to you by the Burlingame Chamber of Commerce and installed by your utility crew. Thank you to all who served and are currently serving. We are forever grateful.

In the month of November, we will be trimming trees and will continue this for as long as weather permits. There are many trees in and around the electrical lines that must be pruned in order to keep the lights on so please be mindful of our crew as they will be working on your streets and around your houses. We are also looking forward to starting street work pending a permit from the state. When this permit is approved, we will be reworking the bricks in front of the Post Office on Topeka Avenue so traffic will be redirected around the construction zone in the south bound lane. This project will be approximately 30 days in length, so we appreciate your patience while we fix the bricks. I thank you all for your patience and I look forward to this Holiday Season.

Les Holman,

Superintendent of The City of Burlingame
